

Gonzo's Quest™ Game Rules

- Gonzo's Quest™ is a video slot with no reel spin: This 5-reel, 3-row, 20-line game introduces the Avalanche™ feature, and has Free Falls wins and Wild substitutions.
- The game is played with 20 fixed bet lines, 1-5 bet levels and different coin values.

- **MAX BET** plays the game at the highest bet level, and the pre-selected coin value.
- **AUTO** automatically plays the game for the selected number of rounds.

- Wild symbol only appears on reels 2, 3, and 4, and substitutes for all symbols.
- Only the highest win per bet line is paid.
- Bet line wins pay if in succession from leftmost to right.
- A bet line win in coins is equal to the value shown in the **PAYTABLE** multiplied by the bet level. This amount is also multiplied by any applicable multipliers.
- A bet line win in currency is equal to the win in coins multiplied by the coin value.
- Simultaneous wins on different bet lines are added.
- All wins pay on selected bet lines only, except for wins with Free Fall symbols.
- Game History is not available when **PLAYING FOR FUN**.
- When the maximum multiplier is reached, all wins are paid with the maximum multiplier until no new wins are generated. The multiplier will revert to the initial multiplier.
- **COINS** displays the number of coins the player has available to wager.

Avalanche™ Feature

- The symbols fall into position in the reels, instead of spinning.
- A winning bet line will start an Avalanche.
- Symbols in winning combinations explode and disappear, leaving space for a second Avalanche of symbols for a chance of bigger wins.
- The Avalanches continue until there are no more wins.
- The win multiplier is increased with each new Avalanche until it reaches the maximum multiplier.
- The multiplier remains at the maximum for the subsequent Avalanches until there are no more wins.
- Maximum multiplier is 5 in the basic game and 15 in Free Fall. See in-game payable for details.

Free Fall

- Free Fall symbols only appear on reels 1, 2 and 3.
- 3 Free Falls symbols activates 10 Free Falls independent of the bet line played.
- Free Fall symbols must appear in succession, starting from the leftmost reel.
- Free Falls use the same bet as the round activating Free Fall.
- A winning bet line during Free Fall will trigger an Avalanche.
- Maximum multiplier in Free Fall is 15.
- Additional Free Falls can be won during Free Falls.
- At the end of Free Falls, the game returns to the round that activated Free Falls.
- At the end of Free Falls, the total win from Free Falls is added to any wins from the round that activated Free Falls.
