- In the first part, the player picks one of the 4 positions on the screen to try and score.
- In the second part, the player acts as a goalkeeper and picks one of 4 positions to try and save the opponent's shot.
- If the player scores, their team's score increases by 1, and a coin win is awarded.
- If the player saves the opponent's shot, a win multiplier is awarded.
- Every time the player saves the opponent's shot, the win multiplier increases by 1.
- If the player fails to save the opponent's shot, the opponent's score increases by one.
- If the player fails to score, neither the coin win nor the multiplier are awarded, and the shootout continues.
- If after the 5 rounds the score is tied, an additional round is played until one team wins.
- The coins collected at the end of the Bonus Game are multiplied by the final multiplier. The number of coins is awarded as the total Bonus win.
- The coin win range and the multiplier are dependent on the number of Bonus symbols that activated the Bonus Game.
- The more Bonus symbols activate the Bonus Game, the better.
- If the Bonus Game is activated with 3 Bonus symbols, the initial multiplier is 1, and can range from x1 to x11.
- The coin win for a scored goal in the Bonus Game that was activated with 3 Bonus symbols can range from x1 to x3 times bet.
- If the Bonus Game is activated with 4 Bonus symbols, the initial multiplier is 3, and can range from x3 to x13.

- The coin win for a scored goal in the Bonus Game that was activated with 5 Bonus symbols can range from x5 to x7 times bet.
- The maximum number of penalty rounds can reach up to 10.
- If the score is tied after 9 rounds, the next round will be the final one, where the player is guaranteed to score and save.
- When the player saves the opponent's shot on the 10th round, the win multiplier can increase either by 1 or by 2.
- The Bonus Game ends when one of the teams has won.
- The player is guaranteed to receive a coin win.
- The minimum and maximum wins in the Bonus Game are 20 and 98 000 coins respectively.
- At the end of the Bonus Game, the total Bonus win is added to any wins from the round that activated the Bonus Game.

## Free Spins

- 3 Scatter symbols appearing in the main game anywhere on reels 2, 3 and 4, activate Free Spins.
- Free Spins are played at the same bet level and coin value as the round that activated Free Spins.
- The Free Spins Tournament imitates the knockout stage in the football Championship.
- Each Free Spins round is a separate football game, where by winning the match the player advances to the next round and plays another match, thus reactivating the Free Spins.
- The goal is to win the Tournament, as coin prizes are awarded for 3rd, 2nd, and 1st place.

- The maximum number of Free Spin rounds is 4, since the player advances from the round of 16 to the Quarterfinal, then to the Semifinal and the Final.
- Each round consists of 6 spins.
- Free Spins feature regular Wilds and Scoring Wilds that trigger goals for the player's and the opponent's teams, depending on what reel they land. Wilds and Scoring Wilds both substitute for all symbols.
- Regular Wilds can land on any reel. Blue Scoring Wild symbols land only on reels 1 and 2 and trigger a goal for the player's team, red Scoring Wild symbols land only on reels 4 and 5 and trigger the goal for the opponent's team.
- If the score is tied after the initial 6 spins in each round, an extra spin is given. This continues until one team wins.
- If the player's team wins, the player advances to the next stage of the Tournament and wins 6 more Free Spins.
- If the player loses the Semifinal, a consolation bronze match is played.
- The coin win depends on what place the player has won.
- The first place awards the player with a x500 bet multiplier, second place - x100 bet multiplier and the third place - x20 bet multiplier.
- No Scatter or Bonus symbols can appear on the reels during all rounds of the Free Spins Tournament.
- All bet line wins during each of the Free Spins Tournament round are added to any wins from the round that activated the Free Spins together with the coin win, the amount of which depends on the place the player has taken.
