

Scruffy Duck™ Game Rules

- Scruffy Duck™ is a 5-reel, 3-row, 25- bet line video slot featuring stacked symbols, Wild substitutions and Free Spins.
- The game is played with 25 bet lines (fixed), 1-10 bet levels and different coin values.
- The bet level is set using the **LEVEL** selector.
- The coin value is set using the **COIN VALUE** selector.
- **COINS** displays the number of coins available to wager.
- When playing at the highest bet level, **MAX BET** plays the game at the maximum bet lines and the current coin value. When playing at any lower bet level, **MAX BET** must be clicked twice to play the round at the selected level.
- **AUTOPLAY** automatically plays the game for the selected number of rounds.
- Winning combinations and payouts are made according to the Paytable.
- Bet level is the number of coins bet per bet line.
- A bet line win in coins is equal to the value shown on the Paytable multiplied by the bet level.

Stacked Symbols

- In both the main game and Free Spins, duck symbols appear as stacked symbols on the reels.
- A stacked symbol is a symbol that either partially covers a reel (1 or 2 positions on a reel), or covers all 3 positions on a reel.
- Stacked symbols will be fully or partially displayed depending on how the reel lands.

Expanding Wild

- Expanding Wild symbols can appear in both the main game and Free Spins and will substitute for all symbols except for the Free Spins symbol.
- Expanding Wilds can appear on any reel, except for during the Colossal Wild feature, where they land only on reels 1 and 5.
- Expanding Wild symbols automatically expand to cover the entire reel they appear on if resulting in a bet line win.
- Expanding Wild symbol substitution pays the highest possible winning combination on a bet line according to the Paytable.

Free Spins

- 3 Free Spins symbols appearing anywhere on reels 3, 4 or 5 in the main game activate Free Spins.
- 1 of the following 5 features is activated during Free Spins: Multiplier feature, Symbol Removal feature, Colossal Wild, Random Wilds and Double feature.
- When Free Spins are activated, the player picks one of the ducks and thus randomly chooses one of the above mentioned features.
- Each feature awards a corresponding number of Free Spins: Multiplier feature - 15 Free Spins, Symbol Removal feature - 12 Free Spins, Colossal Wild - 10 Free Spins, Random Wilds - 8 Free Spins and the Double feature - 6 Free Spins.
- Additional Free Spins cannot be won during Free Spins.
- At the end of Free Spins, the total win from Free Spins is added to any wins from the round that activated Free Spins.
- At the end of Free Spins, the game returns to the round that activated Free Spins.
- Free Spins are played at the same bet level and coin value as the round that activated Free Spins.

The Multiplier Feature

- During the Multiplier feature all wins are multiplied by 3.

The Symbol Removal Feature

- In this feature there are no low win symbols on the reels.

The Colossal Wild

- Colossal Wild substitutes for all symbols, except for the Free Spins symbol.
- The Colossal Wild is either 2 x 2 or 3 x 3 symbols big and appears on reels 2, 3 and 4 only.
- When landing, the Colossal Wild will be fully or partially displayed depending on how the reels stop.
- If taking part in a winning combination, the Colossal Wild will split into 2 to 9 singleton Wilds.
- Any part of a Colossal Wild included in a winning bet line pays the highest possible winning combination according to the Paytable.

Random Wilds

- During this feature 2 to 5 Random Wilds land on the reels on every spin after the reels have stopped.
- Random Wilds substitute for all symbols, except for the Free Spins symbol.
- If the Random Wild lands on the Expanding Wild, the Expanding Wild will still expand overlaying the Random Wild (if resulting in a bet line win).
- If the Random Wild lands on the Expanding Wild which is not resulting in a bet line win, the Random Wild will overlay the Expanding Wild.
- Random Wilds do not expand.
- Random Wilds do not land on top of Colossal Wilds.
- Random Wild substitution pays the highest possible winning combination according to the Paytable.

The Double feature

- It is possible to activate two of the above features at the same time.
- The two features are chosen randomly.
